EDUCATION

Industrial University of Ho Chi Minh City (IUH)

Software Engineering (Completed coursework, degree pending)

Ho Chi Minh City, Vietnam

Aug. 2020 – Present

EXPERIENCE

Backend Intern

Incom Saigon JSC

Aug 2024 – Dec 2024

Ho Chi Minh City, Vietnam

- Built secure backend with JWT authentication and Zalo API integration.
- Managed user roles, permissions, and API for affiliate system and minigames.
- Supported frontend team and documented backend workflows.

Technician

Dai Kim Electric

Oct 2025 – Dec 2025

Ho Chi Minh City, Vietnam

- Installed and configured network cabling and systems in industrial/factory environments.
- Set up CCTV and technical equipment; performed troubleshooting.
- Resolved on-site technical issues and handled problem-solving tasks.

SKILLS

Tech Stack: HTML, CSS, JavaScript, TypeScript, React, Next.js, Node, Express, MongoDB, SQL

Other Skills: Teamwork, Documentation, Unit Testing, Website SEO, UX/UI Design

Tools: Docker, Figma, Postman, GitHub, Vercel

Languages: English (TOEIC 610, can read technical documentation)

PROJECTS

Portfolio | Next.js, Tailwind CSS

Role: Fullstack — Team: 1

Nov 2025 – Present

[Website](#)

- Developed personal portfolio showcasing projects and experiments.
- Implemented interactive UI/UX with smooth animations.
- Continuously explored new ideas and built features for learning and growth.

RoomX Booking System | React, Tailwind CSS, Springboot, PostgreSQL, Keycloak

Role: Frontend — Team: 2

Jan 2025 – Jun 2025

[GitHub](#)

- Developed frontend for online meeting room management system (CMS and web app).
- Implemented real-time room availability checks using API calls and long polling.
- Integrated authentication using JWT and Keycloak.
- Prepared documentation covering architecture, workflows, and algorithms.

Spa Zalo Miniapp | React, Express, Zalo API, MongoDB, Redis

Role: Backend — Team: 6

Aug 2024 – Dec 2024

[GitHub](#)

- Built secure backend with JWT authentication and role-based access control.
- Integrated Zalo API and third-party services for Miniapp features.
- Developed affiliate system with points calculation and membership tier upgrades.
- Developed APIs for mini games to support gameplay and user interaction.
- Provided APIs for frontend team and documented backend workflows.

Chat App Asgy | React, Node, Express, MongoDB, Redis, S3

Role: Frontend — Team: 2

Jan 2024 – May 2024

[GitHub](#)

- Developed real-time chat system supporting 1-1 and group conversations.
- Implemented media sharing (images and files) with cloud storage integration (S3).
- Handled authentication using JWT and asynchronous message delivery.
